The Department of Commerce, in view of bringing uniformity, in the list of taxable services applicable for all SEZs in India, devised a default list of 66 (sixty-six) services (copy enclosed). The Developer, Co-Developers, and the units of Dahej - SEZ have requested for approval of the services with justifications as listed below, which are in addition to the default list of 66 services:-

The Approval Committee may like to consider and approve the default list of services (66) and the above additional services sought by the individual units, co-developers, developer as specified services, as required under the CBEC Notifications pertaining to Service Tax, issued and applicable from time-to-time.

1.	Business Auxiliary Services		Apart from the list of services which are approved, there are other services like services of Commission Agent on which service Tax is levied by the service provider in their ST-2 (Service Tax Registration certificate they have registered themselves as business auxiliary service provider) hence at the time of availing such services and to proceed for A1 and A2 we want exemption from such services.
2.	Other than negative list		As you are very well aware that as per the revised law related to service tax, now concept of Negative list has been made applicable in India hence many service providers which are not falling under specific list of services have registered themselves in the category of negative list while applying for their ST-2. Such negative list services at present it is not there in the approved list of services hence at the time of availing such services and to proceed for A1 and A2 we want exemption from such services as well.
